Conducted during a residential overseas field course, this module focuses on practical field- and laboratory-based study of aquatic habitats, assemblages and organisms. In each year, you need to study modules worth a total of credits. The only change I would want to see for the University is for them to add more online majors in the near future.

RegisteredCharityNumberAdditionally, studentswillselectfromaranged

From the study of molecular biology to fisheries economics and the latest in biotechnology, this school has a strong and supportive student body with a clear aim to be the best in the field of marine biology. The Facts. The marine science program of the school is designed in order to provide the students a well-rounded education in both academic and research.
