Then, we analyze the main phases of the process of introduction of IT and organizational change in Aranzadi. The second involves qualifying objects according to the existing concept of regulation.

Popular access, however, changed the museum and the university more than expected. Finally, the accomplishment of authority relies on a palette of discursive devices, the effects of which cannot be interpreted without taking into account the actual reactions of the participants. After a theoretical introduction, we introduce the firm analyzed Aranzadi and study some of the factors that provoked the beginning of the innovation process in the late s. Lessons to be learned from history? Themes include the art market and value, cultural politics, the reception of artworks, theory and the concept of the artwork, autonomy in art, ethnography and culture, and the critique of Bourdieu on literature.
